## Quintessential Workers Cottage - Walk to Town!

The market is running HOT at present with most homes selling in just days. What will this place be worth in 5-10 years when you can walk to town in literally 4 minutes? Not buying the best priced free standing house in Woombye could cost you \$100's of thousands!

There is an undeniable Queensland flavoured charm to the timber worker's cottages of the 1950's. This one has been given a Hampton's style colour palette with stylish features like the black drop in kitchen sink, matching tapware and pendant lights and a handsome grey and white bathroom. Balancing the polished timber floors, the crisp white interior will suit every decor and accentuate the light and bright atmosphere. So much has changed for this old lady and all the heavy lifting has been done in terms of renovating the big ticket items, but there are still some things you can do to bring her to her fullest potential.
